Introductory Course in Research and Competency Development featuring practical case studies and applied simulations.

PROGRAM GOALS

Objectives of the Doctorate

- Develop a strong command of scientific and technological advances in Economics
- Analyze economic information and formulate well-founded, rigorous arguments
- Lead research projects and multidisciplinary work teams
- Contribute to the advancement of economic knowledge
- Propose and apply strategies to optimize economic development and modernization

ADMISSIONS

Admissions Profile

Admission requirements to begin this program at UNADE:

Applicants who hold an official Master's degree or equivalent and wish to specialize in economics or business to contribute to scientific research and/or pursue a teaching career.

Candidates seeking to conduct high-level research in a specialized area of economics that makes a significant contribution to the advancement of knowledge.

FINANCING

Scholarships & Financing

UNADE offers a University Scholarship Program designed to support students pursuing Master's and Doctoral degrees, promoting equal opportunity and facilitating access to higher education.

Scholarships are partial awards and cover a significant portion of tuition costs, applicable to master's, doctoral, and bachelor's programs.

Students may also be eligible for **interest-free monthly payment plans** offered by UNADE.
